LEGAL WING MANAGED CONTRACT REVIEW

Efficiently reviewing contracts (project-based and ongoing) allows the legal professional to get straight to the legal core and take action. We organize contracts and use AI to automatically abstract relevant provisions into reports and dashboards. So you can make data-driven business decisions. Examples include M&A due diligence, building records in a CLM system, drafting the best possible templates based on most acceptable terms, comparing contracts to your standard terms, or identifying contracts that need to be amended in response to a regulatory event.

Contract Review

- Automatically review your contracts on relevant and business specific provisions
- Ensure a streamlined review across the legal department
- Outsource repetitive reviewing tasks to legal tech
- Summarize contracts for a quick overview in risks and opportunities

Contract Comparison

- Insight in non-standard terms to expedite review by in-house counsel
- Overview of common deviations from baseline standards and suggested modifications to reduce negotiation cycle times
- Track changes made in previous versions during negotiation process

Contract Analytics

- Additional KPI-driven process analysis to improve operational performance
- Adoption of legal insights into other business aspects such as procurement, sales and finance
- Periodically updated contract management systems for an accurate corporate housekeeping

Man versus machine

We believe in the thoughtful, human approach to both business and legal tech. Without a human aspect, technology would not have the potential to efficiently support your organization and contract review process. Though we focus on tech, we will always need people for high level legal review and strategic decision making. Legal tech will not steal your work, it will make it more enjoyable when utilized effectively.

Legal business intelligence

Run your legal department like a business. Legal Wing delivers strategic legal insights that lower cost, mitigate risks and deliver increased insights to the organization.

Empower in-house legal teams to serve your company's needs using a strategic business approach. Leveraging the most accurate legal tech solutions, we provide full insight into your contractual risks and opportunities. We accelerate and improve legal processes, save valuable time, reduce unnecessary costs and immediately capitalize unused growth potential.

Contract insight

Legal Wing analyzes legal data to automate the first steps of your contract review process. We identify existing rights and obligations and compare standard vs. non-standard provisions. Other than standard provisions, we also analyze revenue-related terms and capture key business metrics. Our clients leverage these services to develop negotiation strategies, manage contractual commitments, increase revenue and optimize contract value.

Process insight

But most of all we realize process improvements that increase efficiency for your in-house legal department.
